ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,

....AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get out of order, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and flat-irons heat in the same length of time.

In fact, the various purposes to which this useful apparatus can be put may be readily conjectured by every one. No farther description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

For sale, wholesale and retail, at

Wilbor's Compound of Pure Cod Liver Oil and Lime,

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

TESTIMONIAL.

☞ Let all read the following, which is but one of the many testimonials being constantly received:

DR. WILBOR. Dear Sir:—I have found in the course of a long and extensive practice, that the seeds of Consumption are by no means to be found as arising from a few individual causes, but that any serious drain upon the physical constitution may leave the sufferer in that prostrate condition which induces disease. Thus in fever, in severe colds, and in rheumatic affections, those great chambers of the human frame, the lungs, being perhaps the nicest and most sensitive complication of the various organizations, are liable to be the principal sufferers, and the left lung, which is smaller than the right, is generally the principal seat of disease. Consumption consists of such an ailment of the air passages as prevents a free circulation in the matter of respiration as is necessary to pass air in and out of each cell of the chest. When the natural respiration of the lungs continues, it is impossible to contract the disease known as consumption.

In a series of long practice, I had found Cod Liver Oil a great and efficient agent. I chanced to see your notice of the article prepared by you, and known as Cod Liver Oil and Lime. I instantly realized the propriety of your combination, being for years an experimental chemist, and well knowing the medical properties of the Lime, which are reproducing and healing, two immensely important agents in the treatment of Consumption.

I accordingly applied your remedy, and in five months of constant practice have found the result most surprising. Since the first trial I have depended almost entirely on all consumptive cases upon your Cod Liver Oil and Lime. I have found the medical qualities to be a healing and natural tonic, and that the lime aided materially the process of reformation of the diseased cells of the lungs which have decayed from various causes. Moreover, I have, after a careful analysis of your preparation, satisfied myself that it not only answers the immediate want of the physician, as it regards a recreative agent, but also as to sustenance, incomparably strengthening the rest of the system, and thus giving to a consumptive invalid just what is wanted, viz: the means of sustaining the body while the required cure is effected.

Having carefully tested these facts to my entire satisfaction, in an extended practice, I do not hesitate to say to all consumptive invalids—Try Wilbor's Cod Liver Oil and Lime. A. C. MADDEN, M. D.

This lady has traveled through the principal cities of the United States, and is acknowledged by the scientific and professional men, to be superior to any Clairvoyant they ever consulted. She entrances herself, and can see any thing transpiring in all parts of the world, and describes persons and places. Also, advice given in law cases, business matters, matrimony, &c., &c. Her powers have enabled her to perform some of the most astonishing cures of diseases that have been pronounced incurable by physicians. She can see the workings of the physical system so clearly as to be able to describe the patient's feelings, the nature and locality of the disease, either present or absent. Her medicines are purely vegetable, being roots and herbs. All her prescriptions carefully put up by Dr. Main, at her residence, No. 16 Prospect street, Boston.

Western Land Agency.

Persons designing to remove West, or invest in Western Real Estate, are invited to call at the office of the subscriber, where they will be able to gain much information relative to the Western country, and post themselves up before starting, thus saving both time and money.

Maps of the Western States, showing the lands offered for sale by large land companies, and lists of a large share of the lands offered for sale throughout the West, prairie, timber, improved and unimproved lands with full descriptions, prices, and terms of payment. Specimens of the

SOIL, CEREAL PRODUCTIONS, COAL, and other minerals from many different localities, may also be seen, and thus the emigrant be able to gain much valuable information from the mass of collected matter.

From a knowledge of the West, gained by five years' residence, and close observation, the subscriber feels confident of being able to give such judicious advice, and will be happy to do so GRATIS and furnish letters of introduction to correspondents in all parts of the West—Maps of Illinois, showing the Lands of the Illinois Central Railroad Company, and descriptions and full particulars relating to them.

To Colonies very favorable inducements are held out by large land interests, the full particulars of which may be learned from the subscriber, and negotiations entered into.

The extensive connection with Western land agencies enables the subscriber to offer great facilities for purchasing in the way of all. Persons having property in the West can gain reliable information with regard to it, titles investigated, taxes paid, and sales effected on application.

Government Lands located, on, shares or commission. All letters of enquiry, enclosing postage stamps, fully and promptly answered. This is the only office in the Eastern States where information can be obtained in relation to the Western country.

☞ TO FARMERS.

Muriate of Lime!

The high price of the special manures, Guano, &c., first led to the composition of a fertilizer which should combine all their good qualities, but whose price should place it within the reach of the poorest of the cultivators of the soil. The increased demand of last season, together with the voluntary testimony of many who have fully proved its efficacy, leads the manufacturer to believe that the object has been obtained in the Muriate of Lime, and has induced him to extend the facilities for its manufacture. It has been tried upon almost every variety of soil, but is especially adapted to Cereal Plants, Grass, Corn, Wheat, &c.

A pamphlet, with testimonials, will be forwarded to any address, and all orders by mail, accompanied by the cash, punctually attended to. It is sold at the following fixed prices—For less than 10 Bbls. $1,10 per Bbl; over 10 Bbls. $1,00, or in Bags of 150 lbs., at 87½ cts per bag, delivered at any depot or wharf in Boston, or Charlestown.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds made to any dimensions and of superior quality either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rice Place, or at the store of M S Jackson, on Exchange st., and at either place any article may be obtained of large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods.

The Course of Politics.

The fact is rapidly manifesting itself, even to the most superficial observer, that the inauguration of the Republican party upon the living issues of the times, and the popular sentiment of the people, was most opportune; and that this party has, day by day, been gathering strength, until it is now fairly and rightfully regarded as one of the most potential political forces in the country, and is shaping itself into the only real and consistent National political organization in the land. The Republican party now stands upon the basis of the Fathers of the Republic, and does justice to the honorable conquests which the best minds of the country approved; and to the history of the political progress of the United States. In proportion as its doctrines and motives become more and more understood, it will become the rallying centre of all who wish for the best advancement of our civilization, and the purity, safety, and progress of our political destiny.

On the other hand, it is found that what was once the proud and victorious democratic party, has been rent in twain, and instead of representing the popular sentiment of the people, has degenerated into a mere scramble for the pickings and stealings of office, by stooping to the drivelling position of working in such a manner as to carry sectional favor, and to prostitute its power by bowing the neck to the mandate of the slave interest. Since that portion of the party still calling itself democratic, has been joined by place-hunting pro-slavery whigs, it has ceased the effort to become imbued with the popular feeling that ceased to acknowledge itself amenable to popular control, and has shown a determination to usurp any power and incur any responsibility to effect those objects which the oligarchy of slavery demand. This corrupt democratic party, still more corrupted by taking to its bosom the Toombs and Clingmans, the Barnes and Littles of the former whig party, is now pressing forward in opposition to the spirit of our institutions and of our history, by inaugurating a system of measures, which shall ignore all care for freedom, by enthroning the dark curse of slavery as the chief good; and override all the just balances in the government by monopolizing the functions of all its branches in that of the Executive.

The public opinion of the country is not always right, in all its details, but it has never failed, in all its changes to regard freedom as, the fundamental object, purpose and aim of the government. Concessions have been made, and liberally made to the necessities and conveniences of slavery, but they have always been regarded as concessions, granted on account of the exigencies of the case, and sometimes, doubtless, without sufficiently regarding the effect. The amalgamation of the Whig party in the Slave States, for the purpose of making a bold and daring push to extend slavery over the barrier which has been so securely laid, as was thought, against the spread of slavery, brought the Slave States into a political unit, and made their vote a coveted prize to political adventurers. The bid was made, and the barrier of the Missouri Compromise was thrown down.

The dissolution of the Whig party in all the South, in the struggle between freedom and slavery as to the territories, has been followed by a gradual process in the sundering of all political parties in the Free States, to the complete and utter demolition of these parties; and out of their remains has grown up the Republican party upon the basis of the ancient political platform of all parties, when they were sincere and honest, and of all men who entertained national and not merely sectional views; while the coalition, alliance, or whatever it may be called, of the representatives of the selfish and reckless pro-slavery sentiment of all parties, have shown a willingness to sacrifice any interests, however dear, and incur any risk, however imminent, in order to come in for a share of the political dividends to be secured by acting in conjunction with the slave power, against former compacts and compromises, and the history and purpose of the government from its first inception.

A portion of the results of this alliance is to be found in our State, in which hunker whigs joined hands with hunker democrats, and the mutual yielding of the more moderate of them has permitted the most reckless, through the instrumentality of a secret caucus drill, to force through a series of the most extreme and dangerous measures, fraught with mischief, insubordination and corruption.

First, the solemn will of the people in amending the Constitution, is set aside as unworthy of attention. The long settled constitutional mode of settling differences of opinion on questions of constitutional law is contemned by a foolish Governor, and a heated, amalgamated Legislature. The power of the Executive is stretched and strained to its utmost tension, and made to overleap constitutional provisions and legal decisions. The Judiciary, which heretofore has stood secure in its independence, and before whom the question of constitutional right must come for settlement, has been assailed with gag and halter, and the guillotine; and the structure of the State Courts is to be changed, in order to make their future decisions agree with the voice of the secret caucuses, held in the subterranean rooms of the State House.

These outrages against the sentiments of the people of the State have been brought about by men heretofore known as Whigs, and who regard contempt for the people, and political rascality, as synonymous with democracy, which they once derided, but with which they are now in fellowship, and which they lead and will eventually tumble into the gulf of political perdition.

Slavery, habitually, and from the necessities of its very nature, separates husband and wife, parent and child.

Mr. Cho[illegible] argument to-day, which occupied [illegible] hours, and was a magnificent effort, and was listened to by many people and could crowd upon the floor and in the galleries of the House. It was not only a triumphant vindication of Judge Davis' motives in the case, for which he sought to be victimized, but also a very strong and conclusive argument in favor of the *true sovereignty of the Kansas people itself.* It has made a deep impression upon the heart; but precisely what effect will be produced, cannot be determined to-day. Opinions are now divided as to whether Judge Davis will be removed.

Madness still rules the hour with many of the Wildcat and Straightout leaders, but there may be another second thought among the followers. The caucus to-night will probably determine the question.

More hereafter in regard to the powerful defence which has been made.

Yours in haste, W.

War between Nicaragua and Costa Rica.

Gen. Walker and the Nicaraguans have now something of legitimate business on their hands, Costa Rica having declared a war. The State of Costa Rica, with which Nicaragua is now at war, adjoins its territory on the south. It has an area of about fifteen thousand square miles, and a population estimated at two hundred thousand. There are about ten thousand Indians, and the rest are chiefly mixed—what we would call quadroons. The regular army is very small—two hundred men—but there is a militia force of five thousand. It has a large French and German population, which is inimical to Walker.

Nicaragua is pretty safe from invasion by Costa Rica, as there are but two available roads, and these wind through narrow passes, which could be defended by a very small number of determined men against almost any force that could be brought against them.

It is supposed that Walker will receive large reinforcements from California and New Orleans, and that he will take the field in person, and march direct for San Jose, which is about ten days' journey; but as the road winds through three chains of mountains, and is chiefly through the enemy's country, the commissariat must be supplied for three weeks at least. The democratic party in Nicaragua have received the declaration of war with exceeding joy, and Walker's Napoleonic promptness seems to have delighted his friends and frightened his enemies.

The Washington correspondent of the New York Herald says that Mr. Pierce is deluded into the belief that he will receive the nomination. Although every person outside of the White House sees how absurd such a belief is, yet he has no doubts. His only associates are a few cadies—needy keepers and scamps for the—who despatches him with praise before the public, laugh at him behind his back, and occasionally use him to put money in their pockets.

[illegible] of the Southern States will probably [illegible] complimentary vote for Pierce, on the [illegible] that they cannot do less after his fierce [illegible] of January. But even these friends [illegible] to say that if they believed that [illegible] any risk would be run of nominating him, they would let the compliment slide. At [illegible] Pierce's principal backer is Senator [illegible] and the friends of this gentleman assert [illegible] eye to the chances of becoming the [illegible] negatee, in case the Brigadier is unsuccessful.

The Washington Union, the administration organ, is horrified at the bare idea that there should be such a thing as a "free soilish democracy in the North."

[illegible] nothing more touching than the effort of self-government of which little children are capable when the best part of their nature [illegible] vigorously under the light and warmth of paternal love. It is a sad mistake which teachers and others who have the charge of children make in supposing that children cannot comprehend the motives of their conduct. Every child in the school room is at times [illegible] observer and a very severe critic, bringing the conduct of the teacher to the judgment seat of its convictions. Children may be [illegible] giving unsatisfactory reason for their decisions, but they never doubt its correctness, nor [illegible] they often do so since their intuitions and the [illegible] were given them in advance of the [illegible] powers.

The American Association for the advancement of science, is making great efforts to bring together [illegible] its next annual meeting, to be held at Albany in August next, several of the notable scientific men of Europe. Amongst these are the distinguished chemist Liebeg, Mr. Airy, the Astronomer Royal of Greenwich, Le Verrier, of France, Argelander, of Germany, the Struves of Russia and others. These men are offered free passages across the Atlantic, by the owners of the several lines of steam and other packets. At this meeting, in addition to the ordinary proceedings, the State Museum of Natural History will be inaugurated by an address from the Hon. Wm. H. Seward, and the Dudley Observatory by an address from the Hon. Edward Everett.

Bangor Savings Bank.—At the semi-annual meeting of the Trustees of the Bangor Savings' Bank, held on Monday, April 7th, it appeared by the Treasurer's Report that the amount of deposit in said institution was $5,480 08. One hundred and eighty-six depositors were found entitled to dividend amounting to $578.67, which was voted by the Trustees and is payable on Monday next 14th inst.

The director of the U. S. Mint has given notice that purchases of silver will be paid for as at present, at 91 22½ cents per standard troy ounce, the payments to be made in silver coins of the new issues. This will make the full weight five francs pieces be worth 99 cents, old Spanish dollars 105 cents, Mexican and South American dollars 106 cents, half dollars of the United States 99½ cents.

A Boston man is said to be engaged in the construction of a new clipper model, designed to sail faster and carry more cargo than any clipper now afloat.

Mattawamkeag Log Driving Company.

At a meeting of the Mattawamkeag Log Driving Company the following Officers were chosen:

Moderator—Jonathan Eddy.
Clerk and Treasurer—H. E. Prentiss.
Directors—Jonathan Eddy, Geo. W. Ladd, Walter Brown, David R. Stockwell, H. E. Prentiss.

As appears by advertisement in this day's paper, the Company take the first drive of logs at the Forks of the Mattawamkeag; but afterwards at the Drew Dead Water. The reason of the difference we understand to be, that there are many small lots of logs hauled in about and below the Forks, which their owners do not wish to fit out crews to drive; while the crews arriving later with large drives from above, will generally prefer to drive them to the Drew Dead Water; and as these drives will arrive at the Forks at different times, the Company would be obliged to wait for all to arrive, at the risk of being hung up, or fit out a separate crew for each drive.

The large and elegant store of Moses Pecker & Co., situated near the Bridge in Millbridge, was burnt last night, with all its contents, except, it is said, about fifty dollars worth of goods and their books and papers. The room in the second story, about eighty feet by forty, has heretofore been used for a sail loft, by Mr. Marble, recently removed to Boston, and was owned by him, and probably not insured. The rest of the building and goods were insured in Boston to the amount of thirty-one hundred dollars. This store was completed last year, and was an ornament to the place.

The Irish American of New York city is out against Mr. Buchanan, for his speech at the dinner of the Lord Mayor of London, in which he remarked that "Wherever the English language is spoken, there, political slavery could not exist."

This remark has excited the ire and mortification of the sons of Ireland, and he is threatened with the loss of their votes.

At old line Democrat remarked, recently, in reference to the efforts of Barnes, Little and other Strait Whigs in the Legislature to figure against Judge Davis, that he never knew a Whig to attempt to do anything *democratically* without defeating the object by the fool-hardy rascality. Strait Whigs think that any outrage is democracy.

One Democrat remarked to another in reference to the nomination of Doctor Jordan to the Recorder-ship that if it was confirmed the Lieut. Governor would resign. The reply was that this threat of [illegible] friends would cause the confirmation as [illegible] one was now in repute at Augusta who was opposed to Gen. Pierce!

The Ellsworth American claims for Union river the honor of furnishing the first salmon of the season. [illegible] the Penobscot we never make an account [illegible] small run down salmon. It is the fat [illegible] plump twenty pound salmon we are looking fo[illegible]

On referring to our advertising columns, it will be seen that the [illegible] noble steamer Menemon Sanford is to be put upon the outside route between this city and Boston, the present season. This steamer will leave New York for this city via Boston, on or about the 15th inst.

The alarm of fire last evening was occasioned, probably, by the burning of brush, taken from the embankment of houses. This burning of brush in the spring time is an amusement for boys; perhaps, we believe to this city.

The dwelling house of Mr. Robet, of Houlton, was entirely consumed by fire, on Thursday night; the family having only time to escape in their night clothes.

Prof. Harris will preach this evening, at the Hammond St. Church. Exercises to commence at half-past 7 o'clock.

The town of Dell[illegible] elected Republican Selectmen on the 24th inst.

Houlton Election.

MR. EDITOR,—I [illegible] by the Bangor Journal that the Election in this [illegible] went against the "black Republicans" by a very large majority. The facts of the case are simply these:—Of the Town Officers elected, six of the nine are good Republicans, and the other three were elected only by the aid of Republican votes.

Houlton, April 4, 1856.

GAS EXPERIMENTS.—We find in the report of the Philadelphia Gas Works, where coal can be obtained at the lowest prices, experiments in producing gas from [illegible] have been successfully made. Ten additional retorts, suitable for wood, have been put in one establishment. With the additional experience now gained, there is reason to believe that each retort can be made to produce from nine-and-a-half to 2 millions of cubic feet of gas, the quality of which has been frequently tested photometrically, and found to be such that the light obtained from a cord of 128 cubic feet of ordinary pine wood is equal to 800 pounds of spermaceti candles. Oak or maple, of good quality, will yield gas equal to 900 pounds of spermaceti candles to the cord. These results are obtained from the wood used in billets without particular care in drying. When the wood is well dried, and split into small pieces, the illuminating effect is very much increased; the product per cord of prime wood having equalled over 1300 pounds of spermaceti candles.—*Portsmouth Journal.*

ALL'S WELL THAT ENDS WELL.—The readers of the Tribune will remember that some time ago a young German girl from Texas, who was stopping at the Prescott House, was, by inquiring her way of a negro woman in the street, led into a fashionable brothel in that neighborhood, where she was repeatedly violated. A few days afterward she escaped and preferred a complaint before Mr. Bowles, at the Emigrant Rooms in the City Hall; a warrant was issued, and the parties arrested and released the next day as usual. This girl has since then become a mother; her means have been exhausted, and she has been at work at artificial-flower making. A few days ago as she was going to the store of her employers, she was seen by a well-[illegible] man from the West, who fell in love with her at [illegible] sight, sought an introduction, was much [illegible] by the refinement of her manners as well [illegible] her beauty, and proposed to her. She told [illegible] all, and they were married on Saturday.—*N. Y. Tribune.*

The man who helps to destroy another will most certainly destroy himself in the end.

LEGISLATURE OF MAINE.

FRIDAY, April 4.

SENATE.—The President read a communication from Henry W. Paine, Esq., in behalf of Judge Davis, notifying the Senate, of the illness of one of the counsel of Judge Davis (Mr. Choate,) and requested a postponement of the "hearing" until to-morrow. Granted.

On motion of Mr. Robinson, the Senate proceeded to the consideration of the "liquor bill."

Mr. Robinson moved that the Senate recede and concur with the House in incorporating the word "may" instead of "shall" in the 10th line of the 6th section.

The bill passed to be engrossed, as amended, in concurrence with the House.

On motion of Mr. Hayden, the Senate proceeded to the consideration of the bill "an act to establish a court of common pleas."

A general discussion of the bill was then begun by Mr. Butler in opposition to the whole subject. He thought the establishment of a court of common pleas, unc[illegible]led for, unnecessary and an attempt to revive an exploded system. He did not think that the judiciary committee intended to press the matter. The people have not petitioned for the change in the Courts. He would ask the chairman of the judiciary committee upon what petitions the report was based.

After further debate the bill was laid on the table.

Mr. Farley reported a bill "an act to incorporate the Mount Katahdin Road Company," which was once read, the rules suspended, read twice and passed to be engrossed.

HOUSE.—Message from the Senate, informing the House of the receipt by that branch of a communication from Henry W. Paine, of Woodbury Davis, asking postponement of hearing until to-morrow, and transmitting the communication and Senate order thereon, (postponing until to-morrow.)

The order was read and passed in concurrence.

Passed to be enacted.—Bills, to provide for incorporation of Musical Societies; regulating compensation of Jailors; authorizing the town of Lewiston to choose Fire Wardens: additional to acts to incorporate Penobscot Log Driving Company.

GRAPE CULTURE IN THE UNITED STATES.—The Philadelphia United States Gazette, thinks that "there is a probability that greatly increased attention will be given this Spring in several States particularly in Tennessee, Georgia and South Carolina, to the culture of the grape.—The soil and climate in that part of the country are eminently adapted to the successful growth of the vine, as is already given by the actual experiments. The most valuable wine grapes known in America, the Catawba, is indigenous to the State of South Carolina, and thrives with equal luxuriance throughout that isothermal belt of country. The efforts of Messrs. Longworth, Buchanan and other gentlemen in Cincinnati, backed by the large amount of capital at their disposal, have awakened very general interest in the new department of agriculture, and imparted to it an impetus which augurs important results.

Added to this, the repeated disastrous failures in the European wine crop, and the annihilation of vineyards before the progress of disease, suggests the possibility of having to rely on home production. Prices are stimulated, and the demand for a pure article, under the increased temptation to adulterate and imitate, becomes more urgent. The culture of green-house grapes, within twenty miles of Boston, is quite extensive, and the amount of money invested in houses for their growth must be reckoned by hundreds of thousands of dollars.—There are several growers who have annual crops of from one to five tons, commanding a price of $1 to $2 the pound, varying with the season in which the crop is ripened. Many varieties are grown, embracing all the most delicious kinds cultivated in the East, and in tropical climates in the open air.

ASSYRIAN DISCOVERIES.—It is stated that Colonel Rawlinson, who is at present engaged in prosecuting the discoveries commenced by Layard and Botta, and in exhuming from the mounds of the long-lost rival cities of Nineveh and Babylon, the instructive remains of that once gigantic power, has lately discovered in a state of preservation, what is believed to be the mummy of Nebuchednezzar. The face of the rebellious monarch of Babylon, covered by one of those gold masks usually found in Assyrian tombs, is described as very handsome—the forehead high and commanding, the features marked and regular. This interesting relic of remote antiquity is for the present preserved in the museum of the East India Company. Of all the mighty empires which have left a lasting impression on the memory, none has so completely perished as that of Assyria. More than two thousand years have gone by, since the two "great cities," renowned for their strength, their luxury and their magnificence, have crumbled into dust, leaving no visible trace of their existence, their very sites forgotten. A chance traveller, Layard, riding through the Mesopotamian valley, discovered "the buried city," and with a success that will immortalize his name, has commenced to unroll the book of Assyrian history and civilization, which of all the histories of the first period of the world, is most clearly connected with the subsequent destinies of the human race. The discoveries already made, furnish ample testimony to refute the sceptic and unbeliever of scripture truth.—*Independent.*

Varieties.

The British Board of Admiralty have notified our Government that they have adopted Dr. Kane's charts, thus throwing overboard the charts of Capt. Inglefield and other Arctic navigators belonging to the British Navy, as well as the works of all of Dr. Kane's predecessors on the coast of Greenland. If any thing could add to the value of this compliment, it is the fact that it was awarded almost by acclamation, without hesitancy or dispute.

To contend against the evils of other men, does not remove our own.

A sarcastic disposition is a curious compound. We were examining a specimen on one occasion; found envy, ill-will, self-conceit, and half a dozen more odious evils mixed together in about equal proportions, and then a very thin coating of mirthfulness and humor on the outside, put on for a covering.

No house, says Henry Ward Beecher, is complete without two pieces of furniture—the cradle and the old arm chair. No house is full that hath not in it a babe and a grandfather or grandmother. Life becomes more radiant when its two extremes keep along with it. The two loves which watch the cradle and serve the chair are one.

Advices from Santa Fe state that Gen. Garland had ordered 250 men, under Colonel Chandler, to take the field early in March, for the purpose of invading the Gila Apache country, to demand satisfaction of the Indians for the murders and robberies committed by them.

A BOY TORN TO PIECES BY A BLOODHOUND.—A young lad named Ephraim Whitehead, living in Cleveland, was killed by a bloodhound on Saturday last. He was missing, when the family became alarmed, and search was instituted for him. A nephew of Mr. Whitehead discovered the boy in a field, about twenty rods from the house, nearly dead, having been attacked and torn in a most awful manner by a bloodhound slut, owned in the neighborhood. The poor little fellow lived only half an hour after he was found. When he was found, the question was asked whether it was the bloodhound that attacked him. He had barely strength enough to half articulate "Yes."—The boy was about eight years old, and was a general favorite with the family.

BIBLES IN TURKEY.—A box of New Testaments in Turkish, that were to be shipped to Thessalonia, were recently sent from the Bible depot in Constantinople to the custom-house. As they were books, some copies had to be sent to the government censor to be examined before they could pass. They soon came back with the government seal on the first blank leaf, authorizing their free circulation in Turkey.—*Presbyterian.*

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, April 7.

SENATE.—Mr. Mason, from the Committee on foreign relations, reported no further legislation necessary to put an end to the treaty with Denmark touching the Sound Dues. The subject was made the special order for Monday next.

Mr. Cass—desire to present a memorial from persons composing the self-styled Legislature of Kansas, and move its reference to the committee on territories.

Mr. Seward—Which of them?

Mr. Cass—the Hon Senator understands just well as I do himself.

Mr. Seward—I desire to know from my honorable friend from Michigan, whether the memorial he presents is a memorial which purports to come from the territorial legislature of Kansas, organized under the act of Congress, and I am led to infer from the manner in which he describes it or whether it is a memorial from the provisional legislature of the new State of Kansas.

Mr. Cass—will answer the Senator, if he says he don't know. If he does not say that, I have no further answer to make. (Laughter.)

Mr. Seward—Well let it go, I have no concessions to make.

Mr. Hale to Mr. Cass—Very well done, Gentlemen; I never knew you to do better. (Laughter.

Mr. Cass moved that the report be printed.

Messrs. Butler and Bayard approved the motion.

Mr. Seward demanded the yeas and nays.

Mr. Cass thought the report would be interesting to a great many persons, and therefore argued its publication.

Mr. Douglass could not imagine what this bogus Legislature could have to say for itself. The subject was laid aside, and the bounty land bill taken up, which was also laid aside after an argument by Mr. Foot in favor of its passage.

Mr. Geyer addressed the Senate on Kansas affairs, saying that his position in the Senate as the sole representative of the State of Mo., would not permit him to decline participation in the debate. He engaged in it as a work of necessity rather than inclination. The circumstances seemed to indicate a purpose to make political capital out of the Kansas disturbances, with the view of controlling the coming national and State elections. In Mo.'s contest he had no disposition to engage. It however became his duty to defend his constituents against the grave and serious charges brought against them. He then proceeded to consider the constitutional aspect of the slavery question, contending that the power of Congress to make all needful rules and regulations in regard to the territory and other property of the U. S., extends to the public domain only and not to the domestic affairs or institutions of the territory.—Without concluding Mr Geyer gave way for a motion to adjourn. Adjourned.

HOUSE.—Mr. Bingham, from the committee on Elections, reported a resolution, declaring vacant the seat of the 8th District of Illinois, claimed by Mr. B. B. Fonke. Also, that Mr. S. Marshall, the sitting member from the 9th District of the same State, was declared over Mr. E. B. Turney.

Consideration of the Committee's report was postponed.

Mr. Mace, by unanimous consent, presented the constitution of Kansas, together with a memorial of the new Legislature of Kansas on the subject.

Referred to the committee on territories.

Mr. Mace's motion to print 10,000 copies was referred to the committee on printing.

In committee of the whole on the state of the Union, the deficiency appropriation bill being in order.

Mr. Kent, of N. Y., made a speech on political affairs, calling on the democratic party, and the conservatives of the North, to crush the aggressive spirit of fanaticism directed against the South. He maintained that the presidential fight will be confirmed to the democratic and republican parties. There can be but two flags, the American organization being out of the question. The people will accept only one great issue at a time. The contest must turn on the Nebraska bill, the democrats having accepted that issue. He condemned the one term principle, as unwise in theory and practice, and declared his hostility to the doctrine of availability.

Mr. Millson spoke in favor of appropriating $1000, for filling up and grading the ground belonging to the Custom House Building at Norfolk, Va. He said that humanity and mercy required it, in view of the efforts now making to avoid the recurrence of yellow fever in that city. The committee rose.

Mr. Peyton, from the committee on Commerce reported a bill, authorizing the President to cause to be procured a suitable steamer, to be stationed at New York, as a revenue cutter, to afford relief to distressed vessels.

Referred to the committee of the whole on the state of the Union.

On motion of Mr. H. Marshall, the committee on foreign affairs were instructed to inquire into the expediency of declaring the engagement of American vessels in the Chinese coasting trade to be illegal, and to assign sufficient cause of forfeiture to the captors of the ship engaged therein.

On motion of Mr. Pringle, it was resolved that the President be requested to communicate what information he may possess in regard to citizens of New York being engaged in the slave trade, or in the transportation in American ships of coolies from China to Cuba and other countries, with the intention of placing or confining them in a state of slavery or servitude, and whether such transportation is a violation of the spirit of existing treaties, rendering those engaged in it liable to punishment for piracy; and especially that he be requested to communicate to this House the facts and circumstances attending the shipment from China of some 500 coolies in the ship Sea Witch, of the City of New York, lately wrecked on the coast of China.

Messrs. Oliver, Sherman and Howard, of the Kansas Investigating Committee, having asked to be excused from serving on Standing Committees, their request was granted, and appointments in their places:

On Elections—Mr. Savage; on Foreign Affairs, Mr. Sandidge; on Ways and Means, Mr. Bell; on Judiciary, Mr. Bughman was appointed on the Committee on Accounts, vice Cadwallader; and Mr. Calhoun on Military Affairs, vice Stanton. Adj.

Connecticut Election.

HARTFORD, April 7.

The election to-day in this State has been an exciting one. The prospects now are that the opposition have the House, while the Senate is doubtful. Hartford has gone Democratic by about 50 majority. It is the largest vote ever polled in the city. The Democrats have elected their Senators in the 1st and 15th districts.

NEW HAVEN, April 7.

In this city C. J. Ingersoll, dem., and Chas. L. English, fusion, are elected. State ticket—fusion and administration about equal; J. E. English, dem., is elected Senator; the other two Senators in this county are probably fusionists.

Representatives Elected. Fusion—New Haven 1, North Haven 1, N. Bradford 1, Milford 1, Marion 1, Orange 1, Guilford 2, Derby 1, Madison 1, Waterbury 2, Plainfield 2, Danbury 1, Wethersfield 2, S. Haven 2, New London 2, Waterford 1, East Lyme 1, Groton 2, Stonington 2, W. Stonington 2, Lyme 2, Westbrook 1, Clinton 1, Griswold 1, total 34. Add three members from Bridgeport Senatorial district, and there are 37. Democrats—New Haven 3, Stratford 1, E. Haven 1, Hartford 2, Old Lyme 1, Bridgeport 1, Essex 1, Hampden 1, Woodbridge 1, total 16. Add six more from Bridgeport Senatorial district, and the number stands 16 democrats to 37, opposition. The House has probably a fusion majority. There is too little known of the Senate to express an opinion. It has 21 members.

Electors, P. M. Further returns show Democratic representatives, Branford 1, Wallingford 2, Southbury 1, Oxford 1, New Britain 2, Middletown 2, Portland, 1, Cromwell 1, Windsor Locks 1, West Hartford 1, Simsbury 1, South Windsor 1. Further fusion representatives, Suffield 1, Simsbury 1, Durham 1, Manchester 1, making a total of 13 representatives, of which the fusionists have 8. The democrats suppose they have carried the 1st, 2d, 3d, 4th, 10th and 15th Senatorial districts. The fusionists suppose they have carried the 6th, 8th, 9th, and 16th. If these be so, there will be 11 more districts to hear from. In the 5th district, in this county, is exceedingly close. There is no election of State officers by the people. David J. Peck is elected Judge of Probate in this district. 14th Senatorial district is fusion. In the 13th is the same by 49 majority, with Wareham, Wolcottown and Claplin to hear from.

As far as heard from, the democrats have elected 39 representatives and the opposition 50. Returns yet to come in are expected to be favorable to the opposition, making the House probably sure, and the Senate doubtful.

Anti-Nebraska Caucus.

WASHINGTON, April 7.

Owing to the slim attendance at the anti Nebraska caucus, at the capitol last night, proceedings principally waste of a non-sensational character; the democrats and Americans of the city severally are holding meetings to-night.

Various Matters.

NEW YORK, April 7.

The steamer Rhein sailed to-day for Liverpool with a full cargo but no passengers or specie.

The coroner's jury upon the bodies of the persons killed by the burning of the ferry boat in Jersey, on the Delaware, returned a verdict last night, in which they declare that the deceased came to their deaths by the inefficiency of the boat by the inspector in the dilapidated boiler, and by the negligence of the directors of the ferry company in allowing an unfit and unsafe boat to be employed in transporting passengers, and failing to make suitable provisions for escape in case of emergency.

The steamer Plymouth Rock resumes her trips in the Stonington line to-morrow, having been completely overhauled and rendered in every respect equal to new.

MONTREAL, April 7.

The purifying house of the Montreal gas works exploded yesterday morning with great violence. Three men were severely burnt, one dangerously.

COPPERED SHEET IRON.
With all kinds of FASTENINGS used for Ships, from the only manufacturers in the United States—C. & J. MARSHALL, Newport, Del.—superior in strength, and at about ONE-HALF the cost of Copper Fastenings.
Orders sent to THOMAS & SHIPPS, No. 41 Commercial Street, Boston, or to the subscriber, (who is the only Agent for their sale and manufacture in the New England States,) will meet with prompt attention.
Samples sent to order, with certificates from A. A. HAYES, Assayer to the State of Massachusetts, also of Committee on Science and the Arts of the Franklin Institute, Philadelphia, and of those who have used and are using the Fastening.
[Copy of a Letter.]
MOUNT, C. & J. Marshall—Gentlemen: At the request of your Agent in Baltimore, in regard to our opinion and experience of your copper-coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper.
We have used some of your Spikes in old vessels as substitutes for copper, and have had occasion to draw them out a year afterwards and found them with the coating as firm as when they were driven, and with no appearance of oxidation.
Very respectfully yours,
(Signed) JOHN D. FARDY & BRO.

STEAMERS.

Summer Arrangement.

The Steamers ATLANTIC Capt Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows.

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00

Freight forwarded daily over the A. & K. and P. & K. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains from the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

California Steamers,
Carrying the United States Mail

5th and 20th of each Month.

Reduced Prices. 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

LET US REASON TOGETHER

HOLLOWAY'S PILLS.
WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fever and Ague	Piles
Colds	Female Complaints	Stone and Gravel
Chest Diseases	Headaches	Secondary Symptoms
Costiveness	Indigestion	Venereal Affections
Dyspepsia	Influenza	Worms of all kinds
Diarrhœa	Inflammation	

**Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes, at 25 cts, 62½ cents, and $1 each.

There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

GREAT
American and Foreign Office,
—FOR—
Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,
No. 76 State Street, opposite Kilby St.,
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others*,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents."

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV. WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 50 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FEBRUARY, 17th, 1853.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Jesse Hoyt, Lewiston Falls,

Bro. Clarke—Every bottle of the Universal Cough Mixture which you left with me is sold—and I have several applications for more. As far as heard from all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chick, agent for North Dixmont, Maine.

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hibbard, Thorndike, Me.

FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief. I happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

MARGARET P. HUBBARD.

The British Periodicals
PREMIUMS
TO NEW SUBSCRIBERS.

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:

THE LONDON QUARTERLY (Conservative).
THE EDINBURG REVIEW (Whig).
THE NORTH BRITISH REVIEW (Free Church).
THE WESTMINSTER REVIEW (Liberal).
BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

THE great and important events—Religious, Political, and Military—now agitating the nations of the Old World, give to these publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the historian, written after the living interest in the facts he records shall have passed away. ... [illegible]

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, especially during the present exciting state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS AND PREMIUMS.
(See List of Premium Volumes below.)

	Per ann.
For any one of the four Reviews	$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00
For all four of the Reviews	8 00
For Blackwood's Magazine	3 00
For Blackwood & three Reviews	9 00
For Blackwood & the 4 Reviews	10 00

Payments to be made in all cases in advance. Money current in the State where issued will be received at par.

The Premiums consist of the following works, back volumes of which will be given to new subscribers, according to the number of periodicals ordered, as above explained.

PREMIUM VOLUMES.

Foreign Quarterly Review (one year).
Blackwood's Magazine (six months).
London Quarterly Review (one year).
Edinburgh Review (one year).
Metropolitan Magazine (six months).
Westminster Review (one year).

Consecutive Premium volumes cannot in all cases be furnished, except of the Foreign Quarterly Review. To prevent disappointment, therefore, where the number of volumes wanted, subscribers will please order as many different works for premiums as there are volumes to which they may be entitled.

CLUBBING.

A discount of twenty five per cent, from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus: 4 copies of Blackwood, or of one Review, will be sent to one address for $9, four copies of the four Reviews and Blackwood for $30, and so on.

No premiums will be given where the above allowance is made to Clubs, nor will premiums in any case be furnished unless the subscription money is paid in full to the Publishers, without recourse to an agent.

POSTAGE.

In all the principal cities and towns these works will be delivered FREE OF POSTAGE. When sent by mail the Postage to any part of the United States will be but Twenty-four Cents a year for Blackwood and but Fourteen Cents a year for each of the Reviews.

Remittances for any of the above publications should always be addressed, post-paid, to the publishers,
